<p>i do not see how Kirklees can approve this application which seeks to significantly change the current approval. the land take now shown on the application is significantly karger then the priginal plans and involves taking common land upto yhe point of the bollards erected by East Bierley Preservation society, this does not denote the border for common land, as i understood it the border was to the hard tarmac not to the bollards.</p> <p>i request that Kirklees recognise the border an value of the common and preserve its open nature and setting within the conservation area.</p>
