<p>I have no objection to the proposed changes, however note that the change may impede access to my property (during construction or thereafter) and just wished to make a note/request that due care is taken not to restrict such access (I am retired with medical needs and require access from the rear of my property at all times).</p> <p>I note also that we had the inclined access to my property concreted for this purpose and it is not clear from the drawings whether any part of the changes to the plans would impact the concreted part of the access to my property and so I would request that due care is taken to ensure this is not impacted and the concreted access remains clear at all times (and/or is not damaged as a result of the change in plans).</p> <p>Thank you</p>
