<p>Dear Planning officer</p> <p>I fully support this application for the changes being made and for the ones that have already been made.</p> <p>This Area of Huddersfield is a diverse and desirable Area to live in, and I know 2 family's living on this road.</p> <p>This house was a damaged and a total wreck for more than 12 years and a total eyesore for everyone. This was due to your department turning down several planning applications. Frankly the owners should have demolished it and put 4 houses on the site and be done with it. Should have challenged you lot and a local Nimby's in the high court.</p> <p>However the owners have spent a lot of money to improve the house. Not making any real material change to the footprint that is visible from the road. The house looks good and tasteful in the Area.</p> <p>This Area was supposed to be a designer area of houses from the 70s Due to the very poor build quality in the 60/70s. many houses have been demolished (number 6 being demolished currently)</p> <p>I have spoken to the contractors at number 9 many times on this site and they have used most of the old shell of the house.</p> <p>All houses should be built this way. Climate friendly!!!</p> <p>The council needs to approve this application without any caveats and any delays. I will be writing to my councillor to add support.</p>
