Dear Charlotte and Team

I am next door to number 9 on the higher side of the road and my comments should be taken into consideration fully. I am saying the following.

1. I fully support the retrospective planning application as filed in its entirety without any change or modification.
2. I am against and disgusted with the enforcement action taken by you and your team.
3. There has been so many application on this site in the last 16 years that it defies belief that no one has not had the council investigated up to now.
4. I have laser measured the number 9 and number 11 height wise and number 11 is over a metre higher. The houses follow a rising trajectory on the street.
5. On number 7 side the roof is hipped and further number 7 has planning permission to increase by 2 extra floors and there will be no issue as assessed by your department when passing the planning application. From what number 7 tell me they are about to start construction and have started to empty the garage etc.
6. I do not under any circumstance want there to be any construction work on number 9.
7. There has been enough there to last a lifetime. So no mods !
8. 99% of the neighbours are happy with number 9 as is and so are we.
9. You gave planning to number 15 without any issue which sits in front of number 11. Yet there is not 1 single overlooking issue created by number 9.
10. Opposite number 6 is demolished and no this there and is being built further back.
11. If there is any desire not to pass the retrospective and changes are demanded I will hold the council responsible for the noise and works and will sue for loss of peace and quite.
12. There are 25 supporting comments and not 1 single one against. This I am sure shows the strength of feeling.

I would strongly state that the council should get this passed without any time being wasted and bring a swift resolution to the situation.

I am happy to be contacted about any discussion you would like to have.

Neighbour of number 9!
