

**KIRKLEES METROPOLITAN COUNCIL
INVESTMENT & REGENERATION SERVICE**

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	2024/62/93293/E
Site Address:	17, Honeysuckle Lane, Soothill, Batley, WF17 6FN
Description:	Erection of 2 storey rear extension with balcony
Recommending Officer:	Jennifer Booth

DECISION – CONDITONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Emma Thompson

AUTHORISED OFFICER

Date: 28-Feb-2025

OFFICER REPORT

Site Description

17 Honeysuckle Lane is a detached, new build property with a double fronted appearance. The property has an open garden and drive to the front with an enclosed garden to the rear.

The property backs onto open fields with similar properties opposite and to each side.

Description of Proposal

The applicant is seeking permission for a two storey rear extension including a balcony.

The extension is proposed to project 4m from the original rear wall of the dwelling. The extension would extend across the width of the dwelling and would have a perpendicular pitched roof form.

The walls are proposed to be constructed using stone with tiles for the roof covering.

Relevant Planning History

None

History of negotiations

Kirklees Development Management Charter together with the National Planning Policy Framework and the DMPO 2015 encourages negotiation/engagement between Local Planning Authorities and agents/applicants, this is only within the scope of the application under consideration. The initially submitted plans raised concerns in terms of the roof design, which was initially proposed to be flat. Amended plans were sought and received which changed the roof form to a perpendicular pitched roof form. The changes did not significantly alter the scale of the scheme and as such, the amended plans have not been advertised.

Representations

The application was advertised by neighbour letters, which expired on 05/01/2025

As a result of the above publicity, one representation has been received. The material planning matters raised are summarised as follows:

- Loss of privacy from the balcony,
- Overshadowing of the adjacent 19 Honeysuckle Lane,

- The flat roofed extension proposed would be out of character with the new development,
- Noise and disruption during construction.

Although other matters may have been raised, such as loss of view, only material planning matters can be considered.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change

Assessment

Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extensions & Alterations SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes on to state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

Paragraphs 5.1 and 5.2 of the House Extensions & Alterations SPD go into further specific detail regarding rear extensions requiring development to maintain the quality of the residential environment, respect the original house and use appropriate materials.

The property is a new build dwelling with a reasonable amenity space to the rear. The extension would have a projection of 4m from the original rear wall of the property and would allow for the retention of a reasonable amenity space. The materials proposed include the use of stone for the walling with tiles for the roof covering which would match the host property. The design

including the roof form and fenestration would form an appropriate relationship with the main house. The rear extension is therefore considered to be acceptable in terms of visual amenity.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

Impact on 15 Honeysuckle Lane

The two storey rear extension would be constructed close to the shared boundary with the adjacent property to the north east. There would be no overbearing or overshadowing given the lower land level of the host property relative to this neighbour and the neighbours own large outbuilding which is situated on the boundary. There are no windows proposed in the side elevation and the windows in the rear would look into the applicants own amenity space. As such, there would be no loss of privacy.

With regards to the impact on the adjacent 15 Honeysuckle Lane, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact of the House Extensions & Alterations SPD, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12, paragraph 135 of the NPPF and the proposals are considered to be acceptable.

Impact on 19 Honeysuckle Lane

The adjacent neighbour to the south west occupies a position which is approx. 1m further back than the host property within its plot with a 1.6m separation between the dwellings. As such, whilst it is noted that the neighbouring property occupies a slightly lower land level, the extension proposed would have a limited projection of 3m beyond the rear wall of the neighbouring property. The proposed extension would result in no significant overbearing or overshadowing given the position of the extension to the north east of the neighbouring property. There are no windows proposed in the side elevation

and the windows in the rear elevation would look over the applicants own amenity space with only angled view towards the neighbours garden and in a similar position to existing windows and the existing relationship.

With regards to the impact on the adjacent 19 Honeysuckle Lane, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact of the House Extensions & Alterations SPD, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12, paragraph 135 of the NPPF and the proposals are considered to be acceptable.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Paragraph 135 (f) of the National Planning Policy Framework.

Impact on highway safety:

The proposals will result in some intensification of the domestic use. However, the parking area to the front of the property would not be affected by the proposed extension and is considered to represent a sufficient provision. Bin storage for the dwelling would not be moved as part of the proposals. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions & Alterations SPD.

Other matters:

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

Representations:

One representation has been received. The material planning matters raised are summarised as follows:

- Loss of privacy from the balcony- **Response:** *privacy is a material consideration as it relates to residential amenity. The balcony element of the scheme has been omitted.*

- Overshadowing of the adjacent 19 Honeysuckle Lane – **Response:** *this is a material consideration as it relates to residential amenity. In this instance, the adjacent property occupies a position to the south of the host property, given the sun path goes from east to west, the extension would not result in any overshadowing,*
- The flat roofed extension proposed would be out of character with the new development – **Response:** *this is a material consideration as it relates to visual amenity. Amended plans have been provided which altered the roof form which would now form a more appropriate relationship with the main house and surrounding properties,*
- Noise and disruption during construction - **Response:** *Although this is a material consideration relating to residential amenity, there is an expectation that there will be such effects as part of the activities associated with construction and such effects would be transient. This would not therefore form a reason for refusal. A note would be added to any subsequent approval reminding the applicant of the appropriate hours of work in line with Environmental Legislation.*

Although other matters may have been raised, such as loss of view, only material planning matters can be considered.

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Matching materials to ensure that the extensions harmonise with the host property as using alternative materials would look out of place within the street scene.

Conclusion:

This application to erect a two storey extension to the rear of 17 Honeysuckle Lane has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation

Approve

Decision Authorisation - Delegated Powers

Application Number: 2024/93293

Officer Recommendation: Approve

Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

3. The external walls and roofing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building.

Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays

08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and

Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule: -

Plan Type	Reference	Web ID	Date Received
Location plan	-	1067242	25/11/2024
Existing plans	-	1066906	25/11/2024
Proposed plans	-	1074282	29/01/2025
Climate change statement	-	1066913	25/11/2024

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application.

The initially submitted plans raised concerns in terms of the roof design, which was initially proposed to be flat. Amended plans were sought and received which changed the roof form to a perpendicular pitched roof form. The changes did not significantly alter the scale of the scheme and as such, the amended plans have not been advertised.
