Re: Effect on a neighbouring property regarding the rear single story extension.  A request that you examine the measurements/location on the proximity of the new wall of this rear extension down the side next to the attached neighbouring 'semi-detached' house is not going to be built on the actual boundary line and that it will as the plans show step back within their own land and will not affect the existing dividing garden wall? If it were to be on the actual boundary line then we would OBJECT as it would affect the opportunity for our property to have a similar maximum width extension in the future.
