<p>Myself, family (young children) and friends gather and meet on the greenway by the Jo Cox memorial park on a weekly basis, it has recently been noted that on arrival from the Halifax road down quacker lane the road / path has been improved from the normal pools of water it is now easy to walk with a pram making our meeting easier to access for all parties. a family member travels to meet from us from the high town road area and has also noticed the safety improvement from their direction underfoot.</p> <p>We have no objection to this house been built as we can only imagine the road toward will be made even better for us and the local people, this will also impact the football club, local houses and navigation to the Jo Cox and greenway.</p>
