

26/2/25

For the attention of D Stainsby

KC Highways Development Management

Responding reference K9-5NW/7

I note that in your consultation response to planning application 2024/933325 you write "The Road to the proposed dwelling is longer than 20m ....."

The access to the proposed dwelling is beyond 87 Quaker lane. This section of bridleway/public footpath is just that. It is longer than 20m but it is not a road it is a bridleway and cannot just be reclassified as a road.

I feel it is misleading to use "road" in the Consultation Response.

No vehicle access is permitted along this section of bridleway beyond 87 Quaker lane when coming from Hightown Road.

Thank you
