<p>This proposal to turn this old building into a tuition centre is a fantastic idea. It makes great use of an existing space, avoiding unnecessary new construction and giving new life to a place that would otherwise sit empty. Plus, it fits well with the area's character while bringing something truly valuable to the community.</p> <p>The design and layout will blend in nicely with the surroundings, keeping the original structure intact while making it more appealing. More importantly, having an educational centre here will add real energy to the neighbourhood. Unlike industrial or commercial activities, a tuition centre is quiet, community-focused, and far more in tune with the needs of local families.</p> <p>This already the most popular tuition centre in the area will also be a positive addition for neighbours. It provides a safe and structured learning space for kids. This tuition centre will directly support the council's goals of improving education and strengthening community infrastructure.</p> <p>All in all, this is a brilliant initiative that will benefit the area in so many ways.</p>
