Subject: 2024/93376 at location Laneside Quarry, Bellstring Lane, Upper Hopton, Mirfield, WF14 8BP

Hi There,

Please see commentary below:

Following on from my original commentary, attached, I believe the requests to finalise this were:

- The 2024 ERAP report, this was expected in December 2024. Though the 2021 result show overall positive results in GCN populations; it would be good to have the updated report.
- Photographs of the site vegetation to support - AFTERCARE, PROGRESS AND MANAGEMENT SCHEDULE REPORT 2024
- Confirmation of when the annual aftercare meeting is to take place. If it already has taken place, then please do send the meeting minutes.

Photos not available

Please find attached email response to this.

Photos are required.

Meeting minutes

I believe from a correspondence from Chris Ballam that these will be provided in July 2025.

2024 ERAP report not available.

I believe that a correspondence from Chris Ballam that RDF Ecology (Rob Frith) will be providing updates in due course.

Conditions are not met.

Many thanks,
Katie
