<p>A business is already running from this site as a waste disposal company/Skip Hire Company. No previous planning permission has been requested and the current planning application is misleading because it is not just being used for storage of plant vehicles, but for storage of skips and storage of rubbish.</p> <p>They burn rubbish at all times of the day morning &amp; afternoon which causes large plumes of acrid smoke, leaving us unable to use are garden and hang washing out.</p> <p>Heavy goods vehicles are constantly coming in and out having an effect to the traffic on the main road, thus causing a danger to other road users and pedestrians due to the limited visibility when exiting the the land.</p> <p>Vehicles are parked outside our house which is double yellow lines &amp; block our driveway.</p> <p>Our neighbour owns part of this land for which she has deeds &amp; they refuse to allow her constant access to her parking space.</p> <p>Another stipulation for this land is that the water authority have to be allowed access to the underground water supply at all times, which currently is not accessible due to the locked gates.</p>
