

**KIRKLEES METROPOLITAN COUNCIL
INVESTMENT & REGENERATION SERVICE**

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	2024/62/93416/E
Site Address:	1, Carr Lane, Shepley, Huddersfield, HD8 8BP
Description:	Erection of single storey side and dormer extensions and alterations to roof
Recommending Officer:	Elenya Jackson

DECISION – Conditional Full Permission

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Sarah Longbottom

AUTHORISED OFFICER

Date: 04-Mar-2025

OFFICER REPORT

Site Description

1, Carr Lane, Shepley, Huddersfield, HD8 8BP is a two storey semi-detached dwelling, which appears as a bungalow from the road due to a change in ground levels.

The site benefits from its own driveway and private rear garden.

The semi-detached dwellings are a stand-alone pair as they are located in a rural location and there are no immediate dwellings within the vicinity.

Description of Proposal

This application has been received for the following 'Erection of single storey side and dormer extensions and alterations to roof'.

The proposal would consist of a hip to gable alteration and a dormer to the front and rear roof planes of the dwelling.

The dormers would project 2.6m beyond the roof plane of the dwelling, have a height of 1.4m and a width of 8.3m.

The proposed side extension would extend a maximum of 7.6m beyond the side elevation of the host dwelling and have a depth of 6.6m. This would feature a pitched roof to match the alterations to the host dwelling with a maximum height 5.2m. There would be a small link extension between the original dwelling and the proposal.

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is located within the Green Belt on the Kirklees Local Plan.

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target, however it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design
- **LP51**- Protection and improvement of local air quality
- **LP52**- Contaminated and unstable land
- **LP57**- Extension alteration or replacement of existing building

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF)

published December 2024, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 13 – Protecting Green Belt land
- Chapter 14 – Meeting the challenge of climate, flooding and coastal change
- Chapter 15 – Conserving and enhancing the natural environment

Assessment

The following matters are considered in the assessment below –

- 1) Principle of development
- 1) Impact on visual amenity
- 2) Impact on residential amenity
- 3) Impact on highway safety
- 4) Other matters
- 5) Representations
- 6) Negotiations
- 7) Conditions
- 8) Conclusion

1 – Principle of development:

The application site is located on land allocated as Green Belt on the Kirklees Local Plan. The proposal is for the construction of extensions to the host dwelling.

Chapter 13 of the NPPF requires Local Planning Authorities to give substantial weight to any harm to the green belt. Development in the Green Belt is considered inappropriate unless exceptions apply. These exceptions include the extension or alteration of a building providing it does not result in disproportionate additions over and above the size of the original building.

An 'original building' is defined in the NPPF glossary as "a building as it existed on 1 July 1948 or, if constructed after 1 July 1948, as it was built originally.

Policy LP57 of the Kirklees Local Plan states that extensions will normally be acceptable provided that the host building remains the dominant element both in terms of size and overall appearance. The cumulative impact of previous extensions and other associated buildings will be considered. Proposals to extend buildings which have already been extended should have regard to the scale and character of the original part of the building. Furthermore, the proposal should not result in a greater impact on openness in terms of the

treatment of outdoor areas, including hard standings, curtilages and enclosures and means of access; and the design and materials used should be sensitive to the character of the Green Belt setting.

In addition, the impact of the development on design grounds, residential amenity and highway safety will also be considered along with, biodiversity and all other material considerations and representations received.

2 –Impact on openness of the Green Belt and visual amenity:

Key Design Principle 1 of the House Extensions & Alterations supplementary planning document (SPD) states that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the HEASPD goes onto state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

The proposal is for the erection of single storey side and dormer extensions and alterations to roof.

The Planning Practice Guidance (PPG) sets out that “openness is capable of having both spatial and visual aspects – in other words, the visual impact of the proposal may be relevant, as could its volume” and this is acknowledged by officers.

The existing dwelling has a volume of 337m² (this does not include changes to ground level).

In terms of volume, the proposed dormers would increase the volume of the roof by approximately 26.7m³ and the hip to gable alteration would increase the volume by 15.8m². The link extension would have a volume of approximately 184m² (this does not factor in the change in ground levels in the site or the link element of the extension).

Therefore, the proposal would increase the volume of the dwelling to approximately 536.8m² (not accounting for change in ground levels and the link extension).

In addition, section 5.4 of the Kirklees House Extensions and Alterations SPD states that roof extensions should reflect the character of the area, the surrounding buildings and the age/appearance of the existing house

Officers consider that the dormer on the principal elevation of the dwelling would be visible within the street scene; however, in this instance, the dormers would be contained within the roof space, not significantly project beyond the existing roof plane and would not dominate the roof plane and would therefore be considered acceptable in this instance.

Section 5.3 of the House Extensions and Alterations SPD refers to side extensions and states that extensions should not extend more than two thirds of the width of the original house, not exceed a height of 4m, be set back 500m from the original building line.

Officers consider that the extension would be set back from the principal elevation of the dwelling and set down. The proposal would utilise matching materials and not significantly extend beyond the side elevation of the host dwelling.

It is considered that the proposal would comply with Policy LP57 of the Kirklees Local Plan and the aims of Chapter 13 of the NPPF.

3 – Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions and Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light, Key Design Principle 6 on preventing overbearing impact and Key Principle 7 for outdoor space.

It is considered that as the proposal would not extend beyond the front or rear of the dwelling, no significant issues would be raised regarding the residential amenity of neighbouring residents regarding overlooking, overshadowing, loss of light or overbearing.

It is considered that due to the location of the proposal, no further properties would be impacted by the development.

It is considered that the proposal would not take up a significant amount of useable amenity space and sufficient amenity space would be retained if the proposal was to receive permission. Therefore, the proposal would be acceptable in terms of the residential amenity of future occupiers of the dwelling.

Due to the location of the existing dwelling and the scale of the extension, there would be no significant harm to the residential amenity of neighbouring residents as a result of the proposal.

4 – Impact on highway safety:

The proposals would result in some intensification of the domestic use of the property. However, due to the proposal not impacting existing parking arrangements on site, the proposal would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions and Alterations SPD.

5– Other matters:

Carbon Budget

The proposal is a domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

6 – Representations:

N/A

7 – Negotiations:

N/A

8 – Conclusion:

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is, therefore, recommended for approval.

Recommendation

APPROVE

Decision Authorisation - Delegated Powers

Application Number: 2024/93416

Officer Recommendation: APPROVE

Conditions and Reason:

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and to ensure the satisfactory appearance of the development on completion, and to accord

with Policies LP1, LP2, LP3, LP11, LP21, LP22, LP24, LP30, LP33, LP52 and LP57 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

3. The external facing and roofing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building.

Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions and Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

NOTE: Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

- 07.30 and 18.30 hours, Mondays to Fridays
- 08.00 and 13.00hours, Saturdays
- With no working Sundays or Public Holidays

In some cases, different site-specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Note: The changes to the access within the adopted highway fronting the property, to provide a dropped kerb, will need to be constructed under a section 184 agreement of the 1980 Highways Act (vehicle crossings over footways and verges). You are required to consult the Design Engineer

(Kirklees Street Scene: 01484 221000) with regard to obtaining this permission and approval of the construction specification. Interference with the highway without such permission is an offence which could lead to prosecution.

Plans and specifications schedule: -

Plan Type	Reference	Revision	Date Received
Location Plan			9/12/2024
Existing plans	01		9/12/2024
Proposed Plans	02		9/12/2024

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application.

No further alterations requested as the application was considered acceptable upon submission.
