<p>I have concerns that this application is one of several to build stables, storage buildings and exercise area that have been submitted in the past and refused. The effect that this type of development will have on neighbouring properties will have an impact, there are currently geese being kept on this land which are noisy and further keeping of initially horses will cause a disturbance and odour and flies. There is a likelihood of rodents where animal feed is stored.</p> <p>The development is neither in keeping in appearance with the properties in the area and will have an effect with the character of the area.</p> <p>The wildlife in the area will be affected, there are Roe Deer in the fields and bats can be frequently seen in the evening.</p> <p>The bridal path leading to the fields that lead to Bunny Wood will be affected, it is used daily and encouraging more vehicles into this small narrow area can only be detrimental.</p> <p>My feeling is that the application should not be permitted and this will open the floodgates to further developments being applied for on the Green Belt land reducing well used open spaces for local residents.</p>
