<p>Mr and Mrs Heffron have consulted us about this application; recognising the possible affects on immediate neighbours. We are generally supportive of a three horse stable facility. Believing that the applicants will conduct themselves appropriately in relation to maintaining the welfare etc of the three horses.</p> <p>They have also made some improvements to the fields, where we are led to believe the horses will graze.</p> <p>What we are concerned about is the positioning of the stable building on the plan. Which places it directly in front of our house and numbers 336 and 338. We have also discussed this with our neighbours at 332. Who have lost substantial part of their view because of the placing and construction of Mr and Mrs Heffron's house.</p> <p>We think the stable would be better placed further towards the Bridle Path, as this will have the dual purpose of removing a direct obstruction. Giving the owners a direct outlook to their horses, and also making access from the car parking area at the side of their house easier - perhaps a site visit would be appropriate.</p> <p>We do recognise that this structure will encroach across the boundary of the Green Belt. And would hope that this does not lead to further construction.</p>
