Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes

Objection on the following basis:
- Further encroachment on Green belt land. More and more of Golcar green space is being taken away
- Concern on planning being stuck to. The existing house has already encroached onto the bridleway
- Effect on neighbouring houses. The existing house has taken away several houses' privacy and light. This additional dwelling will impact the remaining houses -> Could the stables not be moved directly in front of the submitters own house as to not impact others?
- Concern about the impact on the local environment and the field's suitability to house large animals. The existing drainage work has made the environment worse and the field cannot currently cater for large animals. Before the drainage work, the field was a habitat for local wildlife and birds. This is no longer the case.
- Odour from the animal manure being so close to many houses as well as an extremely well used foot path
