Assessment

The Kirklees SPD sets out that single storey rear extensions should comply with certain parameters set out at paragraph 5.2 on page 23 (and listed below) and if they do not, they need to be justified:

Rear Extensions Should:	<u>Yes - COMPLY</u>	<u>No - JUSTIFY</u>
respect the original house and garden in terms of its size and scale	Yes – the extension does not cover more than half of the total area around the original house.	
use appropriate materials which match or are similar in appearance to the original house; and	Yes – to match existing	
not have an adverse impact by way of overshadowing or loss of outlook of neighbouring properties.	Due to the detached nature of the applicant site, the proposed extension will not overshadow neighbouring properties. Due to the modest scale of the proposed extension, there will be no impact on the loss of outlook of neighbouring properties.	

Design and Visual Amenity: Are the considerations in the following table acceptable?

Summary of local street scene/character:

The site to which this application relates is number 67 Millers Croft. It consists of a two-storey red-brick built detached property, a driveway and a garage to the front and a large garden to the rear. The site is situated within a residential area and is open across the front; the rear is enclosed by close board fencing and hedges. The site and its surrounding area are wholly residential characterised by two storey red-brick built detached properties.

Consideration has been given here in terms of the proposals impact on the local character and street scene, including subservience, terracing and building line.

	Relevant key design principle (KDP) of the SPD, Policy in the Kirklees Local Plan and the NPPF	Further comments	✓ / X / N/A
Impact on the Local character and street scene	• KDP1 of the SPD • Policy LP24 Design (a) and (c) of the KLP • Chapter 12 NPPF	The extension is generally modest in scale and the proposed development would not appear overly prominent. The proposed development would be located to the rear of the property and will not impact the character or street scene across the frontage of the property.	✓
Impact on original house	• KDP2 of the SPD • Policy LP24 Design (c) and (d) of the KLP • Chapter 12 of the NPPF	The original property would remain the dominant feature.	✓
Height, scale and massing	• KDP 1 and 2 of the SPD • Policy LP24 Design (a), (c) and (d) of the KLP • Chapter 12 of the NPPF	As above. The extension would project across the rear of the property and is single storey.	✓
Facing materials and detailing	• KDP 9 of the SPD • Policy LP24 Design (d) (iii) of the KLP	Facing materials to match existing.	✓

	Chapter 12 of the NPPF		
Roof style	- KDP 1 and 2 of the SPD - Policy LP24 Design (a), (c) and (d) of the KLP - Chapter 12 of the NPPF	Lean-to roof style – acceptable as it is in-keeping with the original roof style of the host property.	✓
Window proportions	- KDP 1 and 2 of the SPD - Policy LP24 Design (a), (c) and (d) of the KLP - Chapter 12 of the NPPF	Modest size windows in rear extension, including roof lights, which would be in-keeping with existing building.	✓
Accessibility for all users	- KDP 17 of the SPD - Policy LP24 Design (f) - Chapter 12 of the NPPF	Private domestic extension which would provide easy access into the main house.	✓

The design of the proposal is therefore acceptable and accords with policies LP24 of the adopted Kirklees Local Plan, the SPD and the NPPF.

Residential Amenity: Are the considerations in the following table acceptable?

The main properties affected are:

- 11 Leveret Way – the single storey rear extension will not overshadow this property or its garden space. Due to the height/scale, there will be no impact on the first floor. No/limited impact to number 65, extension is designed to ensure privacy to neighbours and will not produce conflict relating to light and outlook.
- 65 Millers Croft – The properties are separated by a detached garage, therefore there will be no impact on number 65.
- 10 Leveret Way – The property is situated to the rear of the applicant's site. Number 10 is oriented differently, and while the extension faces the rear amenity area of Number 10, a fence provides screening. Consequently, the outlook will remain consistent with the existing view.
- There are no properties immediately to the front.
- Due to the position of the extension, there would be no impact to the properties located to the rear. The flat roof nature of the proposed

extension and the trees at the end of the boundary will not impact views in or out of the application site negatively.

	Relevant key design principle (KDP) of the SPD, Policy in the Kirklees Local Plan and the NPPF	Further comments	✓ / X / N/A
Impact on privacy of neighbours (to sides, rear and front)	• KDP 3 & 4 of the SPD • Policy LP24 Design (d) (iv) • Chapter 12 of the NPPF	Acceptable for the reasons set out above.	✓
Impact on light and outlook of neighbours (to sides, rear and front)	• KDP 4, 5, 6 of the SPD • Policy LP24 Design (b) • Chapter 12 of the NPPF	As above.	✓
Remaining garden space of application property	• KDP 7 of the SPD • Policy LP24 Design (b) and (c) • Chapter 12 of the NPPF	As above.	✓

The proposal is therefore acceptable in terms of residential amenity and accords with policy LP24 of the adopted Kirklees Local Plan, the SPD and the NPPF.

Highways and Parking: Are the following acceptable?

	Relevant key design principle (KDP) of the SPD, Policy in the Kirklees Local Plan and the NPPF	Further comments	✓ / X / N/A
Impact on highway safety	• KDP 15 of the SPD • Policy LP22 Parking (f) of the KLP • Chapter 12 of the NPPF	Parking is predominantly provided on-street and in curtilage, which remains acceptable due to the location of this property and the neighbouring houses – off the main through-fare. The	✓

		property also has a driveway big enough to fit a car after the construction of the proposed rear extension and side access.	
Parking provision	• KDP 15 of the SPD • Policy LP22 Parking (f) of the KLP • Chapter 12 of the NPPF	Maintains appropriate access and off-street in-curtilage parking.	✓
Provision for waste storage	• KDP 16 of the SPD • Policy LP24 Design (d) (iv) • Chapter 12 of the NPPF	None shown on plans however, there is sufficient space within the red line boundary to allow for storage on site. Condition not considered necessary.	✓

The proposal is therefore acceptable in terms of highways and parking and accords with policies LP21 and LP22 of the adopted Kirklees Local Plan, the SPD and the NPPF.

Other matters: Are the following acceptable?

	Relevant key design principle (KDP) of the SPD, Policy in the Kirklees Local Plan and the NPPF	Further comments	✓ / X / N/A
Impact on trees	• KDP 13 of the SPD • Policy LP24 Design (d) (i) (iv) Policy LP33 Trees • Chapter 12 of the NPPF	N/A	✓
Impact on ecology	• KDP 12 of the SPD • Policy LP30 • Chapter 15 of the NPPF	N/A	✓
Carbon Budget / Climate change statement	• KDP 8, 9, 10 & 11 of the SPD • Policy LP51	Small scale domestic development to an existing dwelling. As	✓

	Chapter 14 of the NPPF	such, no special measures required in terms of the planning application with regards to carbon emissions. A Climate Change Statement has been submitted with this application.	
Drainage and Flood Risk	- KDP 14 of the SPD - Policy LP24 (d) (vii), LP27 and LP34 of the KLP	The rear garden and landscaping would be retained to allow for run-off. The site is not located within an identified Flood Risk Zone 2 or 3 area.	✓

The proposal is therefore acceptable in terms of the above listed other matters and accords with policies set out in the Kirklees Local Plan, the SPD and the NPPF.

Representations, including Parish/Town Council comments:

No representations received.

Conclusion:

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

This application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.
