

## Vehicle Operations

- Figure 1 shows the 'One Way' system that will be operated on site.
- Signage will be clearly displaced to direct traffic.
- All vehicles will be parked on site.
- Double yellow lines for no parking at the front of the property, minimising disruption for access.

Figure 1:

## **Vehicle Activity**

The anticipated vehicle activity is as follows:

- The frequency of HGV's going in and out of site (Mon to Fri) is expected to increase to five vehicles per day.
- A fleet of five vehicles (Mercedes Sprinter vans) for staff will be used to travel to site with regular movements during the day (Mon to Fri).
- There will be an average of two fleet vehicles working over the weekend.
