

Consultation Response from KC, Highways Development Management
2024/93444 Lafarge Readymix, Lees Hall Road, Thornhill Lees, Dewsbury, WF12 9EQ
Erection of commercial unit for Use Class B2 with associated office space and parking (inc. visitors, cycle parking and service vehicles) and enclosure of existing concrete yard to form new workshop Use Class B2
Date Responded: 29-9-2025. Responding Officer: Mark Berry. Responding Ref: 16-14NW-5.

The previous highways consultation response dated 29th July agreed with the conclusion of the supporting Transport Statement and have raised no objection to these proposals.

These proposals are revised to show the location of the proposed building amended slightly to avoid existing drainage given the stand-off distance to the existing sewers is increased to 8 metres.

Access and parking arrangement are unchanged, and Highways Development Management have therefore no objection to this revised proposal.
