<p>I am deeply concerned that the plans appear to show a road access to this site onto Cumberworth Lane which will be directly opposite the Methodist Church access to Cumberworth Lane and also my residence. The safety mirror currently sited on the opposite side of the road will have to be removed for this new road, creating a safety risk due to Cumberworth Lane layout making it is impossible to see down the hill. Visibility to Cumberworth Lane going up the hill is also restricted due to the telegraph pole, requiring a vehicle to edge out into the road, which is only possible to do safely because of the mirror on the opposite side of the road.</p> <p>I also feel that previous concerns to safety raised on previous attempts are applicable given the inevitable increase of traffic that will result on Cumberworth Lane, which was not constructed for this volume. Please note, that the pavement by the church is particularly narrow and has a gap between the Church walls. Increased vibrations from heavy traffic may have a detrimental impact on the church foundations.</p>
