Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
<p>This proposal is in an area that already has a lot of HGV activity. This has been generally accepted due to it being linked to successful local businesses. Further usage of Cumberworth Lane by vehicles of this kind represent a potential environmental impact by way of noise and pollution.</p> <p>Safety is a massive issue. Due to the entrance and exit of the site being on a blind bend I envisage the chances of an accident to be very high.</p> <p>The road towards Shelley Woodhouse is very narrow in places with little or no room for two HGV's to pass.</p> <p>A major concern is the safety of Shelley College students that walk from the rear of the college and use Cumberworth Lane on their way home. In some areas there is no pavement and in the areas where there is a designated pedestrian area it can hardly be called a pavement. In line with GDPR REGULATIONS I expect this comment to be published without reference to my name , address , email and any further personal details you hold about me.</p>
