<p>I object this development, as this will disrupt the local environment as well as the local community, not limited to increased pollution and congestion. The dale is already overlooked with houses and this spoils the countryside feel of the area. I am concerned about traffic safety already, adding additional housing on the steep and difficult to drive cumberworth lane where there is no footpath one side and multiple 'blind' corners, adds to my concern about safety of bikers and dog walkers. The noise and disturbance right through the town centre will be unforgivable. I do not believe this will benefit the local area, community or environment. With coal situated below the development, I believe this should be left undisturbed as it could cause subsidence on local properties and release harmful dust and particulate when being cleared to make way for the development.</p>
