<p>This development would ruin an otherwise beautiful green space that provides habitat for a wealth of struggling wildlife. This area of the country has concentrated populations of hedgehogs, toads , all of which I have witnessed anecdotally in this area.</p> <p>The houses around the perimeter of the field currently enjoy wonderful rural views which would inevitably be spoiled dramatically during the build. I can say from experience that the effect of noise pollution while home-working in close proximity to these sites is very significant and distressing.</p> <p>Finally, the invasion of privacy on the immediate neighbours once the houses are built is totally unacceptable.</p>
