<p>With regard to this application, my views have not changed since the last application and still stand. I believe the impact on the rural character of village of Denby Dale will be extremely detrimental. The works involved in preparation will cause significant disruption let alone an impact to local residents in terms of noise and traffic and pollution. The environment of woodland and landscape adjacent to the proposed development will be degraded and impact on the wildlife in this area would be massive. Overall the locality would suffer from excessive traffic which the proposals have no regard to the impact this will have during the preparation, construction and ultimately the occupation of the site. The entire character of the village would be eroded further with strain on the local amenities such as roads, health and school provisions.</p>
