<p>I object to this application.</p> <p>I do not think that this current application has addressed the concerns raised as a result of the previous failed application. Accordingly, there is no reason for planning to accept this one. The plans for extraction are vague and do not consider numerous practical, environmental and public health issues. The risks are significant to humans and wildlife by contamination, dust, noise, landslip etc. The exit from the site on to a narrow busy road creates risks to safety of other road users and pedestrians.</p>
