<p>If this application is passed it will have a significantly negative impact on the village infrastructure with a dramatic increase in heavy traffic on already congested roads, an increase in traffic up and down small back roads not designed for large amounts of traffic, the increase in noise and pollution from lorry's and construction vehicles around the small village all day.</p> <p>As a resident who lives in a very central location within the village and close to where this development is being proposed, it is very worrying that no consideration appears to be given to established housing within the vicinity, the noise, the detrimental impact ongoing drilling/excavation will have plus the potential long term impact on the environment and foundations of properties, mine included.</p> <p>Seeing a lovely piece of SMALL land destroyed for financial gain is a travesty, this development has already been refused once....how has it managed to get through AGAIN?!</p> <p>Why is mining this close to people's houses even being considered? It's shocking to think someone has allowed it to go this far with no regard for a local community already being overrun by building on what appears to be every spare metre of available land!</p> <p>The wildlife which will be destroyed, the nature and beautiful walks to the woods, all destroyed. What is currently a tranquil and peaceful stretch of land will be turned into a concrete jungle with no wildlife and no character.</p> <p>The only right course of action is to refuse this planning application, listening carefully and objectively to the challenges and objections of the local people who will be negatively affected by 62 houses and a large amount of mining.</p> <p>Please protect this village and the community within it.</p>
