<p>This latest application is essentially the same as the previous iterations of a huge housing development in the middle of an increasingly large village. The reasons for previous refusal remain and we cannot let a developer create an open-cast mine as a side effect of a very significant housing application. Couple this with a sub-standard road access which will inevitably cause issues due to the narrow road opposite the chapel then accidents are bound to happen</p> <p>I would urge the LA to refuse this application on safety issues as well as the well documented planning issues that remain</p>
