<p>I strongly object to this proposal. My main concern is environmental regarding the extraction of coal from this site. This will have a significant detrimental long term environmental impact. Furthermore, I am concerned about the impact of air pollution both in the short and long term. Poor air quality is attributed to causing a number of health conditions spanning far beyond the time taken to complete works. The longer term impacts on air quality of more traffic travelling an already over congested route from the M1 is a major concern.</p> <p>There are no plans for increase in services to supply these extra homes. The beauty of the surrounding area is one reason I choose to live here, and works on this site would ruin a lovely path from the town to a woodland.</p>
