<p>I recently moved to Denby Dale for health reasons. I have severe asthma and moved here for the clean air and rural location. I am deeply concerned about the potential development as it is just a few hundred meters from the rear of my property and I am worried about the impact on my health from the dust produced.</p> <p>I would like to object given the fact that this is one of the few areas locally that is overgrown with broken etc and non t farmed. This means that the ground cover is excellent for voles, mice, shrews and other small mammals which provide food for the buzzards and red kites seen quite often over this area.</p> <p>With the recent warmer weather we have also seen varieties of bats over this field.</p> <p>In addition to this, as already mentioned, people live in Denby Dale for the peace and tranquil countryside, nature and landscape. Should this development go ahead it will alter the character of the local area, cause massive noise, and disruption to both human and wildlife and for me have a potential dangerous affect on my health and well-being.</p>
