<p>I wish to lodge a formal objection against this planning application. Although put forward as a plan for housing, it is in fact a Minerals application for the extraction of coal. Such extraction on this site is neither environmentally acceptable, nor are the impacts to the local and wider community in terms of noise, air pollution, traffic risk and road safety issues outweighed by any demonstrable public benefit (As would be required by the national planning policy framework). It is also not materially different from the previously refused application (2023/62/92191/E)</p>
