<p>I wish to object to this development in the strongest possible terms . This is a mining application in disguise. The excavation of in effect , an open cast mine, in proximity to a village and its residents will bring considerable detriment to the local area.</p> <p>The application will result in very specific impacts for residents , increased noise , environmental damage , pollution above levels recommended by the World Health Organisation and significant visual blight to the village of Denby Dale and its surroundings .</p> <p>The proposal is a mining application cloaked as a housing development and as such should be rejected , not least of all because it does not comply with Kirklees's Environmental policy and Carbon Strategy .</p> <p>The associated traffic required to remove mined material will add to already congested roads , and add to the difficulties of local roads. Denby Dale already experiences difficulties with parking and passing and the village centre is a bottleneck .</p>
