<p>I object to this application on environmental grounds, the land is unsuitable for residential development and the suggested remedial work extracting coal, would have a detrimental effect on the whole village increasing heavy traffic movements on roads that already struggle to cope with lorries. It is not in line with climate change plans. There would be a loss of biodiversity which could not be mitigated.</p> <p>The size of the proposed development is out of keeping with the village and would put a strain on existing services. The increase in traffic on Cumberworth Lane and its junction with Wakefield Road would create dangerous situations and congestion.</p>
