<p>We object strongly to this application for the extraction of coal and housing development, for the following reasons</p> <p>The open cast mine will be in close proximity to many residential homes, and will have a detrimental effect to health , quality of life the environment and ecology.</p> <p>There will be severe air, dust and noise pollution that will effect not only those living in close proximity, but those living in Denby Dale village.</p> <p>The roads and lanes leading in and out of Denby Dale are already congested with HGV and the like, and Cumberworth Lane is already struggling with the volume of traffic going up and down, the access point to the site enters Cumberworth Lane at a blind spot making it more dangerous than it currently is for pedestrians and other road users.</p> <p>The value of properties in close proximity will greatly depreciate if this application is allowed to go through effecting the livelihoods of a great number of local people.</p> <p>We strongly object to this application and urge the council to reject it.</p>
