<p>I strongly object to this proposal, which is effectively a mining operation disguised as a housing development. The large-scale excavation resembles an open-cast mine and poses serious risks to the health and wellbeing of Denby Dale residents.</p> <p>The development would lead to increased noise, air pollution above WHO guidelines, environmental damage, and significant visual blight. It clearly violates Kirklees Council's Environmental Policy and Carbon Strategy.</p> <p>Additionally, the heavy vehicle traffic needed to remove material will worsen congestion on already overstretched local roads. Denby Dale is already struggling with parking and traffic flow, and this proposal would only make matters worse.</p> <p>This application should be rejected in full.</p>
