<p>Whilst accepting that additional housing may be required in the area I feel that this application can only further exacerbate the difficulties local people have in accessing basic services such as doctors, schools etc.</p> <p>The proposed ground and subsequent site remedial works seem to be just a front to disguise an open cast mining operation which will result in various environmental issues within Denby Dale such as dust, noise and air pollution.</p> <p>Furthermore the volume of excavation vehicles will only increase the traffic problems already experienced within Denby Dale especially on Cumberworth Lane where the site entrance will access the 'main road' network.</p> <p>In addition to the above issues the proposed remedial works including concreting over the exposed mine after the coal extraction can only increase the flooding issue already experienced lower down the hill and in the village vale i.e. River Dearne.</p>
