<p>The new plans that have been submitted are confusing. The upstairs east elevation drawing seems to show the extension will be just above the existing garage, however the side and back drawings of the east elevation show that the upstairs extension to go the full length of the property!</p> <p>The new proposed plans have changed little from the original proposed plans from a frontal viewpoint. The extension is out of proportion with the existing dwellings and the design will result in an unflattering appearance and look out of character.</p>
