

Species Enhancement statement

Proposed single storey extension at 4 The Oval Hightown WF15 8BP

The property in question falls within an established residential area the works comprise of a single storey side extension, the majority of the extensions footprint will be over an existing concreted area and will not affect wildlife habitat.

The wildlife enhancements proposed are a permanent a Fortecrete Sparrow terrace fixed under the eaves on the east elevation and a Swift nesting box fixed under the eaves on the north elevation

The nesting box locations have been marked on the plan as proposed
