

**Consultation Response from KC,
Highways Development Management**

2024/93507 Veolia ES (UK) Ltd, Pennine View, Birstall, Batley, WF17 9NF

Discharge of details reserved by condition 3 (Operational Management Plan) on previous permission 2024/90698 for part change of use of paper/card recycling (B2) facility to incorporate waste transfer station (sui generis) including refuse-derived fuel shredding; installation of canopy; modifications to existing drainage; amendments to WTS building including replacement of 2 doors with rapid action doors; closure of 2 existing doorways and installation of new doorway with rapid action door; amendments to paper/card recycling building including replacement of 1 door with rapid action door

Date Responded: 20/12/2024

Responding Officer: CNB

Responding Ref: K13-9SW/4

This application is for the discharge of condition 3 (operational management plan) of previous permission 24/90698 for a part change of use of an existing recycling facility in to a waste transfer station.

Condition 3 was requested to provide details of how the operation of the proposed site would avoid the requirements for HGVs to need to wait on the adopted highway (Pennine View) in order to remove any obstruction of access issues that may occur with this.

Condition 3

Prior to occupation, an Operational Management Plan shall be submitted to and approved in writing by the Local Planning Authority. This shall contain details of the provision to be made for the parking, loading and unloading of HGVs visiting the site and the stacking of HGVs awaiting unloading or loading within the site in order to avoid the need to wait on the adopted highway. It shall also indicate that the safe manoeuvring of HGVs through the site is achievable and that no vehicles will be required to reverse to or from the adopted highway, Pennine View.

Reason: To ensure a suitable access and layout in the interests of highway safety and in accordance with Policies LP21 and LP22 of the Kirklees Local Plan.

This application was submitted with an accompanying letter that contained relevant sections of the Operational Plan specific to the application site. Section 6 Traffic Plan shows the layout of the site with traffic routing and waiting areas clearly marked. The note also provides details of the operational procedures at the site for the arrival of HGVs stating that if multiple vehicles arrive at site together then the internal waiting areas will be utilised and that collections will be spaced throughout the day to avoid congestion at the site.

This information is deemed suitable for the discharge of condition 3.
