<p>Our representations for this proposal are as follows: Considerable loss of amenity due to the height and scale of the extension. Even though there are no plans of the elevation included in the proposal of what type of gable is proposed, or indeed, if and where any windows and doors are to be included and situated.</p> <p>The proposal will impact on the amenity all of the neighbouring bungalows by causing an overview of their rear gardens amounting to a loss of use and enjoyment of these gardens.</p> <p>Due to the downward slope of the land to the rear of the property, there will also be a great loss of the amenity of privacy in the back bedrooms of the bungalows over the rear boundary. These bedrooms will be directly overlooked from a much higher level by the proposed extension. Also would consideration be made in this regard to the siting of any security cameras and any outdoor lighting be shielded from glare.</p>
