To whom it may concern,

I am writing this email in regards to the suggested development of 189 Headfield Road from a dwelling to a children's home. I am OBJECTING to this and feel this is not an ideal proposal.

My reasons for objection are:

1. The driveway itself is private drive and is not open to the public and it belongs to an individual who owns the drive way and land behind. The proposal states staff will park in allocated parking spots which is not ideal as they do not live at this property. This would cause issues with parking.
2. It will depreciate property prices
3. There have been multiple robberies in the vicinity and is not a safe place for children that are vulnerable.
4. There have been individuals on a few occasions that have taken part in sexual activities late night in cars around the back leaving discarded sanitary products on the ground. It has led to my family having to clean this disgusting mess up due to having [REDACTED] over on a regular basis.
5. [REDACTED], it came to my attention there were numerous reports about drug dealings again in the same vicinity.
6. Lastly, and the most important and valid reason is house 185 has now been purchased. The new owner has demolished all the back area and removed all the greenery which has exposed the electric board generator and also the train lines. It is imperative these children are kept in a safe location and unfortunately this is not one of them. If vulnerable children live there and one of them is suicidal there is a very high chance of them using one of these ways to end their life. These children need to be protected and also kept away from these areas. If this unfortunate incident was to occur the council would be responsible.

I also want to ask if an impact assessment has been done, if so, I would like to receive a copy please? Has an Equalities assessment been completed and if so, again I want to see a copy of this aswell please.

If you need any further information, please do not hesitate to contact me.

Thanks
