24. Biodiversity Net Gain

Do you believe that, if the development is granted planning permission, the Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990) would apply?

☐ Yes☒ No

If No, please provide reasons, with reference to which exemptions or transitional arrangements you believe apply:

Although previous planning application 2021/62/92301/W was granted on 12-1-2022 and at that time there was no need for BNG requirements.

However, the validation clerk had stated that since BNG was introduced on 2-4-2024, the application cannot be considered as a renewal but a fresh new planning Application and hence BNG needs to be considered. Our client will be considering a self build approach on this and therefore will be exempt from BNG requirements

If Yes, please provide the information requested in all the questions below:

Please provide the date the pre-development biodiversity value of onsite habitat(s) have been calculated: (this should be one of the following dates: the date of this application; or an earlier proposed date)

Date (DD/MM/YYYY):

7-1-2025

Please provide the pre-development biodiversity value of onsite habitats on this date:

10%

If a date earlier than the date of the submission of the planning application has been specified above, please provide reasons why this date has been used:

7-1-2025 date was used as we tried to get BNG exempt based on de minimus explanation but would need to be based on 25sqm and did not meet the criteria.

It would be useful to validate the application, if the BNG is needed, then our client would be happy to provide it later or as part of a planning condition.

Please state the publication date of the biodiversity metric tool(s) used to calculate the onsite biodiversity value(s) provided above.

Date (DD/MM/YYYY):

To be confirmed

24. Biodiversity Net Gain (continued)

Has there been any loss (or degradation) of any onsite habitat(s), resulting from activities carried out before the date the pre-development biodiversity value of onsite habitat(s) was calculated and either:

- on or after 30 January 2020 which were not in accordance with a planning permission; or
- on or after 25 August 2023 which were in accordance with a planning permission?

☐ Yes ☒ No

If yes, please provide details including: the date immediately before this activity was carried out; the onsite biodiversity value on this date; and any supporting evidence (or reference to relevant document containing these details).

The proposal is within the grassed areas and none of the existing hedges or trees are affected
BNG report (if required) can be provided at a later date

If yes, please state the publication date of the biodiversity metric tool(s) used to calculate any onsite biodiversity value(s) provided above.

Date (DD/MM/YYYY):

To be confirmed

Does the application site have irreplaceable habitat(s) (corresponding to the descriptions in The Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) which exist on land to which this application relates on the date the pre-development biodiversity value of onsite habitat(s) was calculated?

☒ Yes ☐ No

If yes, please provide a description of these and any further details (for example reference to relevant document):

Only the grassed areas are to be re-developed.

I/We confirm this application is accompanied by the following:

Please provide details (for example reference to relevant document):
