| <p>The Parochial Church Council of St Stephen's Church makes no objection to outline planning permission but notes its concern about any future detailed plans which may include:</p> <p>Buildings above a height that would obscure views of St Stephen's Church from the West</p> <p>Access arrangements which could further contribute to local congestion at busy times of day</p> <p>Insufficient parking for future residents to prevent additional use of public parking on Lidget Street and surrounding streets.</p> | |
