<p>The road leading to what would become the access road for the site is not large enough to support the supply lorries and work trucks on top of the existing residential usage. This would then be further compounded by another 30s residential cars using the road once the works are complete, effectively doubling the roads usage. I am also concerned about any potential additional water run off from the road towards properties down the hill as well as the safety during icy conditions. A combination of the works being undertaken and the additional road use when the works are complete will without doubt cause disturbance to the current residents.</p>
