<p>I am writing to formally object to the proposed [development/traffic changes] affecting Windsor Road and its junction with Cowersley Lane, due to significant road safety and traffic congestion concerns.</p> <p>Narrow Roadway with Parked Cars Windsor Road is a narrow road where on-street parking already reduces the available carriageway width. This makes it difficult for vehicles to pass safely, particularly at busy times, and any increase in traffic will worsen the situation.</p> <p>Junction with Cowersley Lane The junction of Windsor Road and Cowersley Lane is already problematic due to parked cars extending right up to the junction, severely restricting visibility for drivers.</p> <p>Proximity to a Bend This junction is also located close to a bend, further reducing visibility and increasing the risk of accidents, particularly for vehicles turning in and out of Windsor Road.</p> <p>Additional Parking Pressure from Nearby Shop Cowersley Lane has a shop that attracts customer parking, often leading to vehicles parking in an obstructive manner. This further complicates traffic flow and increases congestion risks.</p> <p>Given these existing conditions, the proposed [development/changes] would likely exacerbate safety risks for both drivers and pedestrians. I urge the council to reconsider the impact on road safety and explore alternative measures to mitigate these issues.</p>
