Good afternoon

I live at 16 Grange Drive, Emley, and we regularly have our lovely oak tree (with TPO number 10/97) inspected and on occasion thinned out or pruned as advised (and as authorised by your office).

Sadly I must advise you that yesterday (21 December 2024) the tree fell over in the wind. Fortunately nobody was hurt, and there appears to be only minor damage to the Rectory next door, but my little shed/workshop has been destroyed.

I have attached some pictures. I don't know in the circumstances if you send someone to check, or do a "post mortem" on the tree. Once we have permission from the insurance company we intend to get the remains of the tree cut up and removed.

Please let me know if there is any other information you need.

best regards

Andrew Dive
