<p>Parking in the area is already dangerous due to school drop off and pick up often residents cannot access own properties due to bad or inconsiderate parking the property has limited parking with a maximum of two vehicles with no plans submitted for extra, it states in application that overflow will be in local parking area (non in residential area) only additional parking is on street which is already dangerous it's a small residential street with parking for local businesses already causing obstruction. I am extremely concerned that extra cars will cause an impact if emergency services need to access my property or a children's care home. No planned parking for visitors or cleaners no children's play areas in immediate surrounding area only children's services are local schools. A lot of the residents in area are elderly any noise pollution or increases activity in area will be detrimental to our older residents health</p>
