I firmly believe this change of use is unsuitable for the neighbourhood the property is in. There is not sufficient parking for the proposed use of the property. The street already has an overcrowding issue with too many vehicles parking on the street, adding to this would create access issues for emergency vehicles. The property has parking for 2 vehicles, the application states there will be 2 members of staff on shift at all times. This means there will potentially be 4 vehicles on site at each shift changeover not to mention additional visitors / social workers etc. While I understand the need for care homes this area is not suitable. This is a quiet resisential area with many elderly residents, an instituation of this nature would negatively affect the character of the area.
