<p>The main reason i am personally objecting for the above is to safeguard my family. As a retired with my partner still being in the service as a high level i fear with this dwelling so close to our forever family home that it will put us at risk from previous/potential criminals finding out our personal details. We walk past this house every day to and from school and moved away from to keep us safe. It might not be the actual teens that live there but i know for sure they will have contacts with and this worries me alot. This is our family home and we paid alot for it! We want to be safe .</p> <p>The second reason i object is because i believe its a money making scheme and to try get around the council on a vulnerable area in regards to fostering and care for young children.</p> <p>I do not see this benefiting the area in any way and i truly worry for my families safty and private details being so close.</p>
