Issues and Assessment

The main considerations in the determination of this application are:

1. Whether the proposed development would constitute development as defined section 55 of the Town and Country Planning Act 1990; If so, whether Permitted Development rights apply to the property; and
2. Whether the proposed development falls within permitted development under The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), Schedule 2, Part 1 (Development within the curtilage of a dwelling house), Class A (enlargement, improvement or other alteration of a dwellinghouse).

The proposal comprises the erection of a rear extension, thus the proposal constitutes the carrying out of building on and over land that would materially

affect the external appearance of the existing building. As such, it is regarded as development as defined by section 55 of the Town and Country Planning Act 1990.

The application therefore falls to be considered under the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), Schedule 2, Part 1 (Development within the curtilage of a dwelling house), Class A (enlargement, improvement or other alteration of a dwellinghouse).
