Do you wish your comments to be published on the website anonymously?	Yes
I am a dog walker who has walked this route for 11+ years Much of this time has been happily spent allowing my dogs to freedom of the space. Since this lady constructed her monstrosity of a structure the whole of the landscape has changed. A fence has been erected with barbed wire which is both dangerous and unnecessary. The path is narrow And restrictive and the abuse that you receive from the owner if you dare stop and talk to one of the horses is beyond reconciliation. This is not just an area for horses. It is a full working active stables which other people also use. The traffic this has created on the small narrow lane is ridiculous and unnecessary And the whole structure should be removed. Planning was clearly needed and was not applied for which shows a total lack of respect for the law. This should be taken as it is an opportunity to circumvent planning laws which would have stopped this structure being built. I urge for this planning application to be turned down as this kind of behaviour is becoming all too often in and around the Home Valley area with people believing it's totally okay to do as they wish when it is not. Planning laws are therefore a reason and this should be upheld.
