I live adjacent to the access to this proposed development 14 Hermitage Park. My boundary is separated by hedging. I will require access to the back of the hedging in order to maintain it. Will this be made available? I respect the fact that there may need to be some very light pruning prior to development but the hedging is on my land and I have ensured this sits within my boundary. Could someone contact me to reassure that there will be some access to the hedging behind so that I can maintain it properly. This will be important for you also as maintaining it will ensure a good visual appeal for the property behind. May I also express my thanks for considering us in moving plot 1 to reduce the impact on us during development. It is nice to know we were considered in the revisions.
